

I.i. Door

Wooden with
barred window

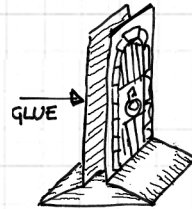

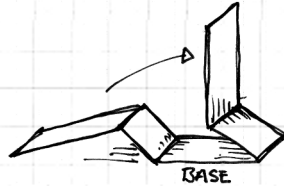

Single

- under 5ft wide

- stand-up type a

Modular Dungeon
Cut-Up Sections

This 3D stand-up door is ideal for use with any 2D dungeon layout, but it looks great with the Modular Dungeon Cut-Up Sections Basic Pack – or even with the free sample pack.

It could be used as a standard door, or for a gaol area in a dungeon or urban setting.

A weight or coin taped to the base can prevent in-play “sneeze” damage!

These doors can also be adapted to fit commercial bases.

Permission is given for non-commercial personal use. © William Babble / Inked Adventures
