Anitangel Miniatures - FREE Angels

30 MM

Angela

A. Broz

25mm

To assemble, cut out each row of figures. Score the RED line, fold, and glue the figures back to back. Cut out the figures with a pair of scissors leaving about 1/8 inch around the figure. Optionally, you can cut the figures out to the black outline using a hobby knife. When cutting out, cut from the front view of the figure: the rear view has a wider outline to cover any misalignments. These figures can be based using the supplied fold-up bases or any slotted base of adequate size.

This PDF has Layers. Click on the Layer Icon in the left content frame to open the layers menu and select the Eye Icon beside the name of the layer to access hidden features. To save ink, be sure to turn off the Instructions layer before printing.

Anitangel Miniatures - FREE Angels' wings set

30 MM

To assemble, cut out each row of wings. Score the RED and Green lines. Fold the wings on the RED line and glue them front to back. Cut out the wings out from the side with the thinner black outline. Peak fold on the scored GREEN lines from the side with the YELLOW block. Glue the block to the back of your finished figure. These wings were designed for 30 mm figures.

This PDF has Layers. Click on the Layer Icon in the left content frame to open the layers menu and select the Eye Icon beside the name of the layer to access hidden features. To save ink, be sure to turn off the Instructions layer before printing.

FOLD-UP TABBED BASES

Here are the instructions for making some simple tabbed bases designed for use the my figures. I suggest using a glue stick for gluing the base down. Remember not to glue the tab!

These instructions are for all tabbed base shapes and sizes.

STEP 1

Pre-Score and Pre-Fold both green and red dot lines.

STEP 2

Cut out a whole column of bases at one time. Fold green line tabs upward. Fold red line fold down.

STEP 3

Flip over. Fold and Glue each side over the bottom. DO NOT GLUE THE TAB.

STEP 4

When Glue is dry, cut out each base with a pair of scissors. Fold tab down when cutting then fold back up. Your done! Insert figure into tab.
